

FULLTRADES™
Beyond Supply-Delivering Solutions

Electrical Power, Safety, and Reliability Solutions

POWER TRANSFORMERS

Substation, Pad Mount, and Dry Type transformers. Pinnacle Power Sales can provide both new and reconditioned transformers

METAL ENCLOSED BUS

Iso-Phase and Non-Seg Bus Duct for the power generation, distribution, petrochemical, transit, municipal, data center and industrial markets.

CABLE BUS

Customizable Cable Bus Systems for large power connections to transformers, switchgear, generators, motor controls, VFD's, and UPS Systems.

NEUTRAL GROUNDING RESISTORS

High and Low Resistance grounding systems to provide a safe and more reliable electrical system.

MIMIC PANELS

Custom Remote Operation Panels and mimic bus overlay systems for switchgear enhances operator safety.

LV / MV SWITCHGEAR

Low and Medium Voltage Metal Clad and Metal Enclosed Switchgear. Whether you need a full lineup or just need to add a few loads.

LV / MV MOTOR CONTROL

Low and Medium Voltage Motor Control lineups including FVNR, Soft Starters, and Variable Frequency Drives.

DRIVE SCAN

Online Remote Condition-Monitoring System designed specifically for Medium Voltage Variable Frequency Drives

TEMPORARY POWER

Custom Cord Sets and power distribution equipment for the temporary power markets.

EQUIPMENT LIFE EXTENSION

Cost effective equipment reconditioning and retrofit solutions to extend the functional life of older electrical systems.

EMERGENCY EQUIPMENT

Transformers, Switchgear, Breakers, Fuses, and other electrical components to get your facility back up and running in an emergency.

POWER QUALITY EQUIPMENT

Low Voltage Harmonic Filters and Transformers designed to increase power quality and efficiency of electrical systems.

Our Suppliers

Here are some of our key suppliers.
